

# ZAKARIA ATATTOU

## FRONTEND DEVELOPER

### PROFILE

A passionate frontend developer focused on turning ideas into functional and delightful user experiences.

I've been working as a Frontend Developer for 2 years, mainly making easy-to-use Single Page Applications (SPAs) using Angular.

I'm good at building simple and flexible solutions that make the most out of the latest tech to improve how people interact with our products.

I really enjoy staying up-to-date with the newest trends in frontend development, and I always aim to use my knowledge of Angular to make great digital tools.

### WORK EXPERIENCE

#### MID-JUNIOR FRONTEND DEVELOPER

##### VALSQUAD

JAN 2023 - PRESENT

- Integrating web applications, combining different components and functionalities to create seamless user experiences.
- Collaborated closely with business analysts, actively participating in discussions to translate client ideas into actionable web features, ensuring alignment with project goals and objectives.
- Led a smaller frontend team, taking charge of task delegation, providing guidance and mentorship, and fostering a collaborative environment to achieve project milestones.
- Focused on enhancing product quality by implementing best practices, conducting code reviews, optimizing performance, and ensuring adherence to UI/UX standards, resulting in improved user experiences and customer satisfaction.

#### JUNIOR FRONTEND DEVELOPER

JUNE 2021 - JAN 2023

##### BLACKSTONEEIT

- Worked collaboratively in a large team setting, gaining valuable experience in effectively coordinating and communicating with team members.
- Built proof-of-concept (POC) projects, showcasing my ability to rapidly prototype and demonstrate the feasibility of new ideas or technologies.
- Conducting bug fixing and troubleshooting, resolving issues to ensure smooth operation and optimal performance of web applications.
- Collaborated closely with Quality Assurance (QA) teams, actively engaging in discussions and ensuring that project requirements were met through thorough testing and quality checks.

#### JUNIOR FRONTEND DEVELOPER

##### VALSQUAD

JUNE 2021 - MAY 2022

- Setting up codebases for new projects, ensuring a solid foundation for development.
- Integrating web applications, combining different components and functionalities to create seamless user experiences.
- Implementing API integrations, connecting frontend interfaces with backend systems to enable data exchange and functionality.
- Conducting bug fixing and troubleshooting, resolving issues to ensure smooth operation and optimal performance of web applications.

#### WEB DEVELOPER - INTERNSHIP

##### INVYSCODE

APRIL 2021 - JUNE 2021

- Introduced to Angular framework and learned its fundamentals.
- Successfully integrated static websites, enhancing my skills in front-end development.
- Engaged in real-world projects, giving me exposure to a professional work environment and providing opportunities to collaborate with a team.
